

RF1800

Decorative Flame Fire

Rinnai

Relax. It's a Rinnai.

Make a statement with this stunning floating flame.

The Rinnai RF1800 incorporates a glass burner that gives the affect of a long floating flame, providing a unique ambience. 1800mm in length, this unit commands attention as a main feature in a living room, entertaining area or restaurant.

Open on one side and glass-lined on the end and back, the fire offers viewing from three sides as standard but with the addition of reflective panels can be installed as a through wall, corner, or enclosed open-fronted fire. The RF1800 is a natural draught fire that uses two twin skin flues off the top of the firebox and can be joined into one single flue or carried through as two separate flues to the cowl. Creating a truly unique focal point, the RF1800 sets the standard in modern style and design

Features and Benefits

- > Unique flame with glass burner
- > Stainless steel panels throughout the firebox enhance the ambience with a continually dancing flame
- > Variety of installation types to flexibly suit each unique setting
- > Full electronic ignition
- > Operated by a simple wall switch with one single flame setting, optimized for convenience and aesthetics.
- > Available in NG and LPG, conversion between gas types is quick and easy.
