

RF800

Decorative Flame Fire

Rinnai

Relax. It's a Rinnai.

A decorative flame fire that looks as good as it feels.

The fresh, slimline design of the RF800 will bring a modern and stylish feeling to your home. This open fronted fire uses a combination of logs, coals and granules to produce a classic, realistic flame. Becoming more than just a feature to your living room, this flame fire will also provide an incredible warmth, producing radiant and convection heat. With the option to adjust flame height and fan speed, you're in complete control.

Features and Benefits

- > Modern design
- > Compact sizing suitable for existing or new timber frame situations
- > Burn media combines logs, coals and granules to create an enticing, warm flame
- > Available with the minimal stainless steel front, this flexible fire has the option of a stainless steel or black trim
- > Open front provides an unobstructed flame picture with a classic look
- > Zero clearance box is supplied as standard, allowing for flexibility in installation

Stainless Steel 3 sided trim

Black 3 sided trim

Additional Features

- > Side mirror reflector panels are supplied as standard with the unit, producing the illusion of more depth to the dancing flames
- > Fully electronic operation with remote controlled fan speed, flame height and ignition
- > Powerful fan operated with remote control to assist with even heat distribution
- > Optional masonry adaptor that allows the unit to connect to a flexi flue liner or rigid flue within a non-combustible chimney

Side mirror reflector panels
