Wood & Gas Heating

**Eureka
Cooker**

 Eureka
Heating

Introducing the latest addition to the Eureka range. The Eureka Cooker can cook and heat simultaneously.

- Use the top of the cooker for pots and pans, whilst roasting in the very functional oven under the firebox.
- Easy to use controls to regulate the oven temperature.
- The firebox opening is at a convenient height for loading timber, and for viewing the dancing flames.
- Optional hot water booster can be used for even more versatility.

The Eureka Cooker would be a great addition to any kitchen or family room.

Air Vent to control oven temperature

Flue damper control handle

Air slide control

Temperature gauge for oven

Access panel for cleaning of creosote excess.
